## Our Overcoats

The Cravenette will prevail as it is light, comfortable and warm. Big varieties 10.00, 12.50, 15.00 and 20.00

Harry Litts, Abilene's big clothier, is home after spending three weeks in the world's greatest market, New York. We go direct to the mills, select our own goods, have our own models made and show the most exclusive styles to be had. This is our only business, we have no other and put our whole time and interest in your getting the best clothing to be had. We take as much interest in seeing you get the best as if we were going to wear it ourselves and a correct fit is what each and every customer must have or we will not take his or her money, as a nice fitting suit is a walking advertising. Colors this fall will be brown and gray and the light shades of gray in Scotch effects will prevail in the gray line. Blue serge will also be popular. The coats are about as long as in the spring, pants about the same.

## Largest Stock of New Things to Wear in Abilene
